

Installation Instructions: Aero Atlas® Viewer 2.0 Data

Your activation code is found on your CD case. Please store the CD case in secure location!

This product requires activation before it can be installed. The following steps require an Internet connection.

1) Insert CD-ROM. The CD will auto play and an activation window will appear.

Enter the activation code found on you CD case. Click “Next”

2) You will be prompted to enter a password and your email address. Create your own password and enter your email address and click “Activate” This information will be used if you ever need to reinstall the program or move it to another computer.

3) When the activation process is complete, the installation window will appear. Click on Steps 1-3 in order to install the map area data.

For questions or problems, please contact support@aeroatlas.com

Note: For non internet connected computers please call Viewer Supprt team at 770-422-1611.

Windows Vista Install Instructions

User accounts controls (UAC) must be tuned off during Installation and Unistallation of the Viewer Data.

Locating the UAC

1) UAC is Located Under **Start-Countrol Panel-User Accounts and Family Safety-User Accounts-Turn User Account Control on or off**

2) Under this screen click the check box so that the box is empty. This will turn the UAC off.

3) Once all data installs are completed the UAC can be turned back on.
